

Daryna Pavlenko

Junior Front-end Developer

I am an aspiring Junior Front-End Developer, enthusiastic about building engaging and user-friendly web applications. I have a certificate of successful completion of front-end development courses where I have gained hands-on experience in HTML, CSS, JavaScript, and some of the popular frameworks. I am keen to leverage my skills and creativity in a professional setting, contributing to innovative projects and enhancing user experiences.

Education

● Bachelor of Computer Science

National Technical University
«Kharkiv Polytechnic Institute»

2019 - 2023

2, Kyrpychova str., 61002, Kharkiv, Ukraine

● Master of Computer Science

National Technical University
«Kharkiv Polytechnic Institute»

2023 - 2024

2, Kyrpychova str., 61002, Kharkiv, Ukraine

● Front-end (HTML/CSS +JS)

Lemon School

2024 (4 months)

<https://lemon.school/>

Experience

● Front-end Developer

Team Work

June 2024

Fully developed two sections on a multi-page website for a group project on Github using React.js framework. The first section I worked on was a Testimonial carousel, and the second one was a contact form.

● Front-end Developer

Pet Projects

June 2024 - January 2025

Developed several websites, 12 of which are landing pages, and 3 others are multi-page versions of phone apps. A responsive design was implemented for all sites, animations were added, and they were checked for bugs.
